"The Christmas Around the World" bazaar given by the Women of Christ Church will be held on Wednesday, November 11, from 9 a. m. until 9 p. m., at Bay Wave-land Yacht Club.

Do all of your Christmas shopping in comfort and with a large selection of original and unusual gift items that cannot be found in a store.

Start your day at the bazaar with a cup of coffee or cold drink in the heart of Paris, at the French shop. Then browse through the jewelry shop, decorated in authentic Mexican style.

Toys and books will be displayed in the holly-decorated Switzerland. Then stop for lunch in the Tea Room, any time from 12 noon until 1 p. m. Look, the waitresses will be dressed in the costumes native to Holland.

Next, spend an hour or two in India, a booth displaying many unusual gift items. Meanwhile the children can be shopping in the Santa Shop, decorated to look like his very own workshop at the North Pole. Be sure to spend some time at the handwork shop, which most fittingly, will be decorated to represent Belgium, the home of fine handwork. Stop at the sweet Shop, you'll feel like you have been transported to England, and you can buy homemade cakes, candies and pies. In a booth representing Iceland, you will find Christmas decorations and arrangements to brighten your home for the holidays and for gifts, as well as beautiful potted plants.

After you have a delicious turkey dinner, with all the trimmings, in the Tea Room from 6-8 p. m., you will want to go back to India, to visit the Gift Shop, and buy another box or two of Christmas cards or notes with a pencil etching of Christ Church decorating each one. This is a beautiful gift item executed by one of the women of Christ Church, Mrs. Paul Vegas.

So don't fail to do your Christmas shopping among your friends and neighbors on Wednesday, November 11, at the Bay-Wave-land Yacht Club.

COMMISSION MAY BUY PLANE FOR WORK

The Gulf Coast Mosquito Control Commission is contemplating the purchase of an airplane designed specifically for larvicide application operations for their mosquito control work next summer.

Chris Elmore, director of the three-county control commission, said that Henry Gardner, sales manager for the Snow Aeronautical Corp., El Paso, Texas, was due at the Gulfport-Biloxi Municipal Airport this week with a new plane, which he is flying here from Texas.

The commission will inspect the plane, have it tested and then decide whether to buy it. Elmore said the aircraft probably would be leased to them with an option to buy or some other similar plan which would enable them to acquire it over a period of time. He said the commission, with its current budget, would be able to buy the plane over a three-year period.

This past summer the commission contracted a plane and pilot to do larvicide work from the air and, while this was satisfactory, Elmore said, it was not sufficient.

"We would be able to do more and better work with our own," he said, adding that "in the long run, owning our own plane would be cheaper."

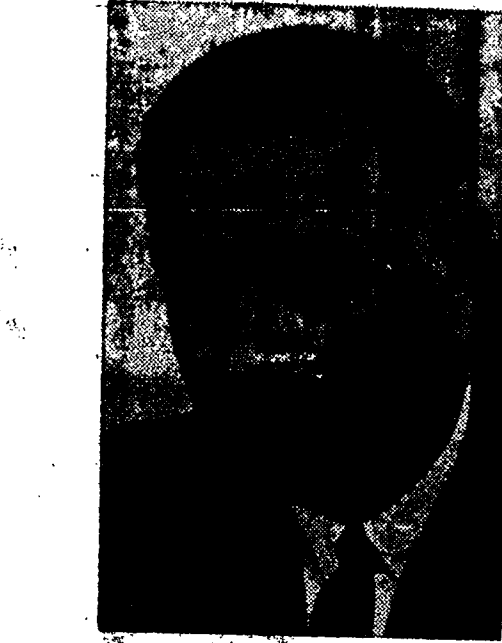

The plane to be shown today is a new model, Elmore said, with a much larger load capacity. It is the single-engine Snow S-3C. The space where the second seat normally is found in light aircraft, the director said, is taken up with the hopper of larvicide equipment.

If the commission does purchase the plane, he explained, then it would be required to contract a local flying service to handle maintenance and to provide a pilot.

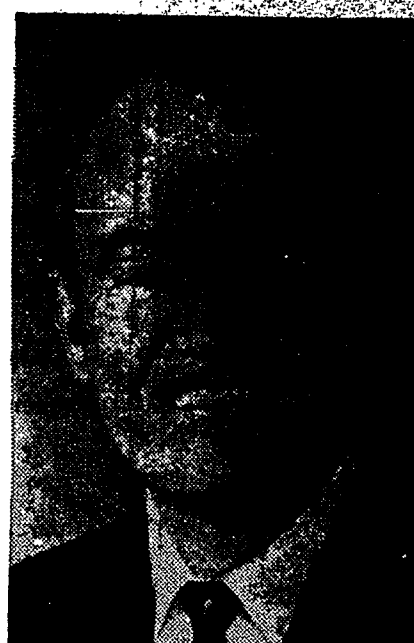

LEGION AUXILIARY TO MEET

The American Legion Auxiliary will meet at 8 p. m. Monday, November 9, at the Legion Home. All members are asked to bring their gift shop articles.

RETARDED CHILDREN MEMBERSHIP DRIVE BEHIND GOAL

The Retarded Children's Association membership drive for 1964-65 is falling badly says Mrs. Yvonne Virgilio, Chairman of the Membership Committee. A goal of 250 members was set by the Hancock County Association at their September, 1964, meeting and only 100 memberships have been received at this date, or only 40 percent of the total needed.

With an annual estimated budget of \$1,800.00 it was pointed out that membership dues from 250 members would bring in a total of \$1,250.00 with the balance coming from individual and organizational donations and fund drives.

The budget expenditures call for payment of the salary of a teacher, maid services, and incidental expenses. A total of 12 children are now enrolled at the Children's Center school on Carroll Avenue.

In order to stimulate interest in the Association's membership drive a special meeting has been called for Thursday evening, November 5, 1964, at which meeting plans will be mapped out for a concerted drive for the needed 150 memberships.

LBJ ASKS UNITY AFTER BIG VICTORY

Lyndon B. Johnson's smashing landslide in the election and his popularity margin soaring toward a record 15 million votes today in triumph, he called for a united America facing the world as one.

In late morning, the one state still in doubt was Arizona, home of Republican Barry Goldwater, who was deluged in the coastal tide of votes returning Johnson to the White House. Goldwater was leading in Arizona.

Johnson had won 44 states and the District of Columbia for a total of 486 electoral votes. He needed 270 to win. Goldwater had six states - Louisiana, Mississippi, Alabama, Georgia, and South Carolina and Arizona for a total of 55.

There had been nothing like this since 1936 when Democrat Franklin D. Roosevelt carried all the states except Maine and Vermont.

In the popular vote Johnson was running ahead of Roosevelt. With about 83 percent of the vote tabulated, Johnson's vote was 61.3 per cent of the total compared with 60.8 per cent given Roosevelt in 1936.

Unofficial returns from the County's 21 Precincts showed Hancock County voters polled 346 votes in the Presidential contest in Tuesday's General Election for Senator Barry M. Goldwater and William E. Miller and 1487 for President Lyndon B. Johnson and his running mate, Hubert H. Humphrey.

U. S. Senator John Stennis and Representative William Colmer of the 3rd Congressional District were both unopposed for reelection.

Crawfish Creek precinct is not included in the count.

Mr. Raymond, a surveyor, resides at 397 DeMontez Ave. His duties will include the administration and enforcement of existing building regulations and the building code now in the process of being adopted.

Mayor John A. Seaford said the code would regulate building in the city and establish requirements as to the types of construction of various buildings. This would include such things as building materials, dimensions, safety and other factors.

The council also recommended to Gov. Paul B. Johnson the reappointment of H. Hardin Shattuck as head of the Hancock County Ports and Harbors Commission.

Mr. Shattuck, manager of Coast Electric Power Association, was one of the original members of the commission appointed by Gov. Ross Barnett.

The council is expected to meet in a special conference Wednesday with city engineers to discuss matters concerning utilities for a proposed new senior high school in Bay St. Louis.

The new school is called for as part of a proposed \$1,100,000 school bond issue currently being considered. Also included in the issue would be an auditorium, gymnasium, and other school facilities.

WINTERING DAIRY COWS

Dairymen need around 3 bales of good hay and flour and a half bushel of silage for each cow. This is based on feeding 10 pounds of hay and 60 pounds of silage a day.

If dairymen have only hay, they will need two and a four h tons per cow; if he has only a silage, he needs six and a half tons.

Generally dairy cows should be fed from stored feed November 1, until April 1, a 150 day feeding period.

Ever wonder why cows in the South do not generally average as high production as those in other sections of the Nat'on? The answer in many cases is "Hollow Belly." Most southern dairy cows just do not get enough feed to produce milk at the most profitable levels.

Grain mixtures should be fed according to individual cow production. To do this, records are needed.

HOW DOES LIFE GET SO TANGLED?

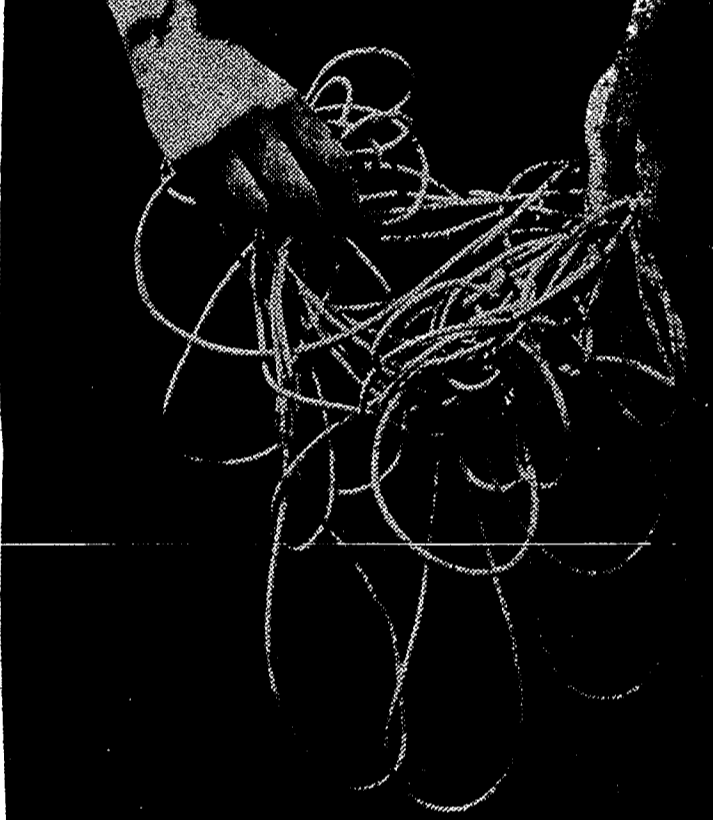

Interesting thing about a rope—it rarely becomes tangled when
it's serving some useful purpose. It stretches firm and taut ... reach-
ing ... holding.

But lay the rope aside ... waiting without a purpose ... and it
becomes so tangled you can't even find the ends.

Life is like that! For some folks it seems an impossible tangle of
conflicts, worries and disappointments. They haven't discovered how
to devote their strand of years to a vital, constant purpose.

But for others life stretches firm and taut from birth to Eternity.
The tangles disappear as men reach across time to hold certain the
truths by which God would have us live.

Life without tangles ... life with purpose ... discover it in
Church next Sunday!

crossing at Hancock County have become in a deplorable state of repair. Since this Board has been advised that it is the duty of the railroad to maintain these crossings in a good state of repair, the Board does not now have any objection to the Louisiana & Nashville Railroad being the only railroad in Hancock County, to immediately place all railroad crossings in the county in a good state of repair.

The above and foregoing resolution was duly seconded by Supervisor Kellar and upon a final vote was adopted by the following vote:

Those voting Aye: Hubbard, Dean, Kellar, Lavinghouse.

WIDER, HIGHER CLEARANCE NEEDED FOR PROPOSED JORDAN RIVER BRIDGE

It was brought to the attention of the Board of Supervisors that a notice has been given to the public and to all interested parties that an application has been made to the United States Army Engineer by the Mississippi State Highway Department for the construction of a bridge, referred to as a proposed bridge over Jordan River and particularly identified as being part of U. S. Highway 1-10. All interested parties are required to file any objections that they might have to the said proposed bridge on or before October 16, 1964.

Since Hancock County is vitally affected by the construction of said bridge they wish here and now to be placed on record as objecting to said proposed bridge as it now appears on the proposed draft prepared by Mississippi State Highway Commission and filed with the U. S. Army Engineers District, Mobile. The reason for said objections being as follows:

1. That the said proposed span shows a clearance wholly inadequate both as to elevation and the clearance between the span of the bridge itself.

2. At the present time a large industry is operated above said bridge and specifically at Kiln, Mississippi, wherein pulpwood is placed upon barges and transported to various paper companies. The bridge used in this operation is forty feet in width and it is imperative that these barges have a clearance wider than that shown on the drawing and a minimum requirement of 100 feet in width would be necessary to serve the purpose.

3. The clearance on said bridge should be of a minimum of 50 feet to allow the barges used in this industry to pass under said span.

4. The pulpwood operation herein above referred to is a vital part of the economy of the county. There are a large number of people who benefit from said pulpwood operation, both small and large landowners sell pulpwood to the operators of the pulpwood yard herein mentioned, and if the span is not wide enough for the barges to safely pass through said span the whole economy of the county would be vitally affected.

5. Jordan River over which this span will be constructed finds its way as it travels past Kiln in a westerly direction into what is known as Catahoula Creek, which empties into Jordan River. The National Aeronautics and Space Administration of the United States Government has condemned land on this creek and if this matter were projected into the future, as it unquestionably should, it is reasonable to assume that the developments by the National Aeronautics and Space Administration will be dependent upon the use of Jordan River in its operation.

The above matter was considered by the Board and it was unanimously approved that this objection should be placed in the minutes of the Board of Supervisors and that a copy of this order be, by the clerk of the board forwarded to the proper authorities to evidence the objection by the Board to the proposed bridge over Jordan River and to respectfully request the Mississippi Highway Department at Jackson, Mississippi, and the United States Army Engineers to revise the said draft for said proposed bridge and in the proposed revision that said proposed bridge will show a vertical clearance of fifty feet and a span of 100 feet clearance in width to accomplish the purposes herein above set out. It is therefore ordered that the Clerk of this Board send a copy of this order to the Mississippi Highway Department, Jackson, Mississippi, and to the

U. S. Army Engineers.

GOVERNOR'S OFFICE ON JORDAN RIVER

The Board of Supervisors considered the community activities of all parties, both citizens and officials as the result of the recent hurricane destroyed by the name of HILDA.

It was the unanimous thinking of the Board that they were proud to be the governing authorities of Hancock County wherein such wonderful community spirit was exhibited.

The Board felt that would be grateful if they did not publicly thank the parties who participated in avoiding a serious condition as a result of the hurricane.

The Board feels extremely grateful to the parties who cooperated so wonderfully well in this time of near tragedy.

The Board wishes to be placed on record in thanking the following:

Governor Paul B. Johnson, Jr.
General W. G. Johnson, Commander of Mississippi National Guard.
Personnel of National Guard.
County Civil Defense Director and his helpers, City of Bay St. Louis.
Civil Defense Director and his helpers, City of Waveland.
County officials, City officials of Bay St. Louis, Mississippi, City officials of Waveland, Mississippi.
Citizens of Hancock County, Hancock County School Board Members, Superintendent of County Schools, City Schools, and Principals of all schools, Mississippi Highway Patrol American Red Cross.

As far as the good people of Hancock County, the Board finds itself unable to fully express the

association for their wonderful cooperation with the period above mentioned and they wish to be known by entering upon the minutes this resolution directed to all the people of Hancock County for their tremendous cooperation in the hours of great anxiety caused by the hurricane.

If the Board has overlooked anyone in giving thanks for their efforts they certainly wish to apologize, but suffice it to say the members of this Board are proud to be members of the Board of Supervisors and the governing body of such a county and such wonderful people as those who live in Hancock County, Mississippi.

The Clerk of this Board is authorized and directed to publish this resolution as an unanimous expression of opinion of the Board of Supervisors in grateful appreciation to all the people who eased the heavy burden presented by Hurricane HILDA.

PAY DEMANDS AND ACCOUNTS

Be it remembered by the Board that pursuant to Chapter 317, Laws of 1958, that the following demands and accounts be paid out of the respective funds allowed by the Board. It is further ordered that the Clerk of this Board shall issue warrants out of the respective funds covering said demands and accounts.

It is further ordered that the Clerk of this Board be and she is hereby authorized and directed to photostat said claims.
